SUMMARY

Full-stack developer focused on building scalable web applications and AI-driven products, with hands-on experience in React, Next.js, Node.js, and Python. Comfortable taking projects from idea to deployed product, with a solid foundation in data structures, algorithms, and system design. Currently expanding into Go and Rust to deepen backend and systems capabilities. Seeking a full-time developer role on a product-focused engineering team.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, Tailwind CSS, HTML/CSS

Backend: Node.js, Python, Flask, REST APIs, Go (learning)

Databases: MongoDB, SQL, PostgreSQL, Prisma, Supabase

Tools & Platforms: Git, GitHub, Vercel, VS Code, Postman

PROJECTS

Career Consultant AI · React, Python, LLM APIs

In progress · Launch Q1 2026

AI-powered career-guidance platform for students.

- Building an AI guidance tool that gives students personalised course and career recommendations based on their profile.
- Integrated LLM APIs to generate tailored recommendations, with interactive college filtering and course-comparison tools.
- Developed a responsive React frontend backed by a Python service layer.

Web Engine · React, JavaScript, Tailwind CSS

In progress

No-code website builder with live preview and code export.

- Engineered a no-code website builder that lets non-technical users assemble production-ready sites.
- Implemented a drag-and-drop interface with a library of pre-built, responsive components and live preview.
- Added an HTML/CSS/JS export feature so users can host the generated code independently.

COVID Admin Platform · Python, Flask, SQL

Academic project

Full-stack records-management web application.

- Built and deployed a full-stack application for managing and processing COVID case records.
- Designed a normalised relational schema with indexing to keep queries fast as data grew.
- Implemented role-based access control, user authentication, and input validation, plus automated reporting and batch import.

EDUCATION

B.Tech, Computer Science & Engineering · B.S. Abdur Rahman Crescent Institute

2023 – 2027

CGPA: 8.67 / 10

Higher Secondary (Grade 12), Science · Abu Dhabi Indian School, Al Wathba

2022 – 2023

90.4%
